OTTAWA NATIONAL FOREST HIKING/BIKING OPPORTUNITIES

Hiking trails in the Ottawa National Forest offer something for everyone. More than 196 miles of hiking and backpacking trails vary widely in character. Some provide short easy walks to points of interest, such as waterfalls and historic sites. Listed below are some of the major trails:

BLACK RIVER HARBOR

Some of the most popular trails are located in the Black River Harbor area; approximately 15 miles north of Bessemer and Ironwood in Gogebic County. These trails provide access to Great Conglomerate, Gorge, Potawatomi, Sandstone, and Rainbow Falls and range in length from 1/4 to 1-1/2 miles. All trails descend rather steeply from the rim of Black River Gorge to overlook points. **To ensure your safety, stay on designated trails and observe all regulations.** Because of its unique character, the trail that serves

Potawatomi and Gorge Falls was designated a National Recreation Trail in 1978. Developments along it include stairways and observation platforms that overlook the Black River and the two waterfalls. A barrier-free access leading from Gorge Falls parking lot to Potawatomi Falls, provides a unique viewing opportunity for people with disabilities. There is also a picnic area. Large, old growth hemlock, white pine, and hardwood timber add to the area's beauty. (easy to difficult)

NORTH COUNTRY NATIONAL SCENIC TRAIL

There are 107.64 miles of this National Scenic Trail that crosses the Ottawa in an east-west direction. When completed, the North Country Trail will extend for about 3200 miles and will link the Appalachian
